INDEX TO VOLUME CXXVI.

Abbott, S. W. The bichloride of gold fraud, 75; recent progress in public hygiene, 311, 336.

Abdomen. The medico-legal aspect of intestinal surgery, Davis, J. D. S., 96.

Abscess. The disappearance of large psoas abscesses, Myers, H., 218.

Achorn, J. W. Vindication of Dr. Sterling Pomeroy, 47.

Adams, H. F. An improved apparatus for estimating urea, 446.

Adams, J. F. A. A case of biliary calculus, cholecystotomy, duodenal fistula, recovery, 55.

Adams, S. S. A case of death from laryngismus stridulus in incipient rachitis, 503.

Advertising. Inducements for advertising, 327.

Albuminuria, its relation to surgical operations, Long, J. W., 94; observations on albuminuria in scarlatina, Dudley, J. W., 138, 160; renal albuminuria not due to organic disease of the kidneys, Wood, E. S., 459, 476.

Alcohol. The bichloride of gold fraud, Abbott, S. W., 75; drunkenness and crime, James, H., 324.

Alcoholism. A brief summary of the clinical history and treatment of 2,012 cases of alchoholism, of which 87 were maniacal, Latimer, T. S., 609.

Allen, C. W. Nomenclature of pediculosis, 440.

Allen, H. On the mechanism of the mammalian limb, 253.

Allen, D. P. The late manifestations of appendicitis and their treatment, 663.

Almy murder trial, 479.

Alopecia areata. Epidemic of alopecia areata in an orphan asylum for girls during the year 1891, Putnam, C. P., 474.

Ambers, J. M. The cardiac indications in the treatment of pneumonia, 661.

Ambulance. New York ambulance surgeons, 154.

Anæsthesia. Local anæsthesia, Scheich, H. C., 178; chloroform *vs.* ether again, 478; a study of anæsthesia as a guide to the localization of lesions in the lower spinal cord and cauda equina, Starr, M. A., 636.

Anatomy. On the mechanism of the mammalian limb, Allen, H. A., 253; the reform of German anatomical nomenclature, Krause, W., 481; recent progress in anatomy, Dwight, T., 654.

Animals. On the mechanism of the mammalian limb, Allen, H., 253; tuberculosis in Jersey cattle; tuberculin as a diagnostic agent, 321.

Ankle. The management of compound dislocation of the ankle-joint, Scudder, C. L., 324, 340; two cases of compound fracture and dislocation at the ankle-joint, 335, 340.

Antisepsis. Intestinal antisepsis, Ernst, H. C., 157, 171; Lister on antisepsis, 378.

Appendicitis. Two cases of appendicitis with abscess successfully treated by rectal puncture, Richardson, M. H., 261, 268; appendicitis, McBurney, C., 401.

Armstrong, H. E. Suggestions for the regulation of dairy farms, 350.

Army. Report of the surgeon-general of the army for the year ending June 30, 1891, 20; the medical department of the army, 73; the appropriation for the library of the surgeon-general's office endangered, 248; the wounded of the Wounded Knee battlefield, with remarks on wounds produced by large and small calibre bullets, Ewing, C. B., 463; first action of wounded soldiers, 560.

Arsenic. Chronic arsenic poisoning, Selmi, 201; inexpert examinations for arsenic, Folsom, C. F., 227.

Aspiration from the patient's standpoint, Bensel, W., 377.

Atavism. Infantile atavism, Robinson, L., 73.

Ayer, J. B. The third year of the influenza epidemic, 543, 553.

Ayer, S. H. A case of empyema with recurrence after apparent recovery, 547, 554.

Bacillus coli communis, 19; bacillus of influenza, 101; the bacillus of influenza, Canon, 153; the public health in Massachusetts, typhoid fever and the typhoid bacillus, 222; passage of tubercle bacillus from the mother to the fœtus, Birch-Hirschfeld and Schmal, 430; the bacillus of measles, Canon and Pielicke, 453; the bacillus of influenza, Pfeiffer and Beck, 645.

Bacteria. The relations of bacterio-chemical results to prophylaxis and therapeutics, Edes, R. T., 638.

Bacteriology. Some of the recent advances in bacteriology, Ernst, H. C., 541; the bacillus of eclampsia, Gerdes, 562; practical results of bacteriological research, Sternberg, G. M., 609; the treatment of experimental tuberculosis by Koch's tuberculin, Hunter's modifications and other products of the tubercle bacillus, Trudeau, E. L., 610.

Baldwin, Mrs. H. R. Extraordinary mutilations from a railway accident, 350.

Ball, A. B. Dysentery; symptoms, complications and treatment, 634.

Banana flour, 277.

Bardeleben. The new rifle projectiles, 590.

Barney, C. N. The cause of sea sickness, 390.

Barss, J. R. Some anomalous cases of scarlatina, 630.

Bauke. Etiology of acute circumscribed œdema, 591.

Bensel, W. Aspiration from the patient's standpoint, 377.

Bergmann, E. von. The Langenbeckhaus at Berlin, 429.

Beri-beri, Sinclair, A. W., 101.

Bibliography. Abbott, A. C., principles of bacteriology, a practical manual for students and physicians, 396; Agnew, W. P., diagnosis and treatment of hæmorrhoids and other non-malignant rectal diseases, 642; American Medical Association, addresses, papers and discussions in the Section of State Medicine, 149; Army, Report of the Surgeon-General of the Army for the Year ending June 30, 1891, 20; Barr, J., the treatment of typhoid fever and reports of fifty-five consecutive cases with only one death, 396; Bartholow, R., a manual of hypodermic medication; the treatment of disease by the hypodermatic or subcutaneous method, 425; Bœnning, H. C., a treatise on practical anatomy for students of anatomy and surgery, 41; Boston City Board of Health, annual report, 346; Boston Lying-in Hospital, fifty-ninth year, 429; Bramwell, B., atlas of clinical medicine, 370, 587; Burdett, H. C., hospitals and asylums of the world: their origin; history, construction, administration, management and legislation, 296; Buzzard, T., on the simulation of hysteria by organic disease of the nervous system, 666; Cammann, D. M., the physical diagnosis of the diseases of the heart and lungs and throat and thoracic aneurism, 245; Chauveau, A., the comparative anatomy of the domesticated animals, 41; Clark, J. E., physical diagnosis and practical urinalysis, 396; Coltman, R., Jr., the Chinese, their present and future: medical, political and social, 149; Davis, N. S., Jr., consumption, how to prevent it and how to live with it, 271; Denmark: its medical organization, hygiene and demography, 295; Dunham, W. R., higher medical culture: medical science based on the four vital properties and laws of organic force, 666; Foster, M. A., a text-book of physiology, 172; Fox, W., a treatise on diseases of the lungs and pleura, 642; Fullerton, A; M., nursing in abdominal surgery and diseases of women, 371; Gibson, G. A., and Russell, W., physical diagnosis, a guide to methods of clinical investigation, 173; Hamilton, F. H., practical treatise on fractures and dislocations, 534; Hamilton, J. B., lectures on tumors from a clinical standpoint, 221; Hare, H. A., system of practical therapeutics, 586; Harvard University, annual reports of the President and Treasurer of Harvard College, 1890–91, 150; Huidekoper, R. S., age of the domestic animals, being a complete treatise on the dentition of the horse, ox, sheep, hog and dog and on the various other means of determining the age of these animals, 125; Hurd, E. P., sleep, insomnia and hypnotics, 450; Jamieson, W. A., diseases of the skin, 666; Johnstone, A., Botany: a correct manual for students of medicine and science, 271; Kelsey, C. B., stricture of the rectum: a study of one hundred and thirty-eight cases, 296; MacFarlane, A. W., insomnia and its therapeutics, 371; McBride, P., diseases of the throat, nose and ear; a clinical manual for students and practitioners, 506; Maryland, Ninth Biennial report of the State Board of Health, 371; Massachusetts Board of Lunacy and Charity, thirteenth annual report, 347; Massachusetts General Hospital and McLean Asylum, seventy-eighth annual report, 506; Massachusetts, vital statistics for the year 1890, 374; Mays, T. J., pulmonary consumption a nervous disease, 371; Millard, H. B., a treatise on Bright's disease of the kidneys, 372; Moullin, C. W. M., surgery, a practical treatise with special reference to treatment, 221; Nancrede, C. B., essentials of anatomy and manual of practical dissection, together with the anatomy of the viscera, 587; New York County visiting committee of the State Charities Aid Association, report, 43; Osler, W., the principles and practice of medicine, 369; Parkes, E. A., a manual of practical hygiene, 345; Politzer, A., the anatomical and histological dissection of the human ear, 320; Potter, S. O. L., handbook of materia medica, pharmacy and therapeutics, 477; Pozzi, S., treatise on gynecological medicine and surgery, 245, a system of gynecology, 615; Pozzi, T., treatise on gynecology, medical and surgical, 642; Remondino, P. C., the Mediterranean Shores of American, Southern California: its climatic, physical and meteorological conditions, 372; Robinson, F. B., practical intestinal surgery, 296; Rohé, G. H., a practical manual of diseases of the skin, 666; Roosa, D. B. St. J., treatise on diseases of the ear, 320; Senn, N., surgical bacteriology, 221, prin-

ciples of surgery, 372; Sexton, S., and Duane, A., deafness and discharge from the ear, 587; Sheild, A. M., surgical anatomy for students, 296; Simon, W., manual of chemistry, 198; Stewart, D. D., and Lawrence, E. S., essentials of medical electr city, 425; Strahan, J., the diagnosis and treatment of extra-uterine pregnancy, 41; Sutton, J. B., surgical diseases of the ovaries and Fallopian tubes, including tubal pregnancy, 372; Tebb, W., leprosy and vaccination, 271; Thin, G., leprosy, 271; Thomas, T. G., a practical treatise on the diseases of women, 41; Thorne, R. T., diphtheria, its natural history and prevention, 221; Vaughan, V. C., and Novy, F. G., ptomaines, leucomaines and bacterial proteids, the chemical factors in the causation of disease, 220; Visiting-list for 1892 (Lea Brothers), 41; Vierordt, O., a clinical text-book of medical diagnosis for physicians and students based on the most recent methods of examination, 98; Waller, A. D., an introduction to human pnysiology, 173; Wilson, J. C., the complete medical formulary and physicians' vade-mecum, 345; Wood, C. A., lessons in the diagnosis and treatment of eye diseases, 345; Wood, H. C., therapeutics, its principles and practice, 425; Zeitschrift fur orthopædische chirurgie, 98.

Biography. Agnew, D. H., 304, 325, 647; Aitken, W., 672; Ayres, D., 24, 104; Ayer, J., 303; Babcock, M. N., 540; Bartlett, E., 648; Berry, E. S., 48; Birdsall, W. R., 620; Bowditch, H. I., 67, 76, 226, 402; Bowman, W., 352; Braune, W., 540; Brown, B., 23, 73; Brown, G., 484; Brucke, E. W., 48; Burnham, C., 204; Carpenter, A., 132; Clark, C. F., 453; Clark, S. S., 432; Comstock, D. C., 328; Crede, C., 328; Credé, C. S. F., 481; Cushing, S., 252; DeChange, H. H., 304; Delavergne, C. E., 592; Donlin, P. E., 620; Draper, J., 304, 510; Earle, P., 512; Elder, L. W., 512; Embree, J. R., 328; Federici, C., 620; Fiske, W. B., 484; Formad, H. F., 648; Gross, S. D., 401; Hendee, H. S., 48; Hill, B., 76; Hilton, J., 48; Hofman, A. W, Von, 564; Holmes, O. W., 450; Hopkins, W. S., 484; Huse, R. C., 592; Jarvis, S. G., 252; Jeffries, J. A., 326, 328, 538; Jenkins, A., 540; Jones, C. M., 104, 130, 155; Kemp, C. P., 204; Kimball, J. E., 592; Long, W. H., 48; Luce, L. H., 132; Lumnitzer, A., 228; Lyman, G. H., 291, 313, 645; McIntire, H. G., 484; Mackenzie, C., 48; Mackenzie, M., 156; Martin, C., 76; Martin, O., 404; Mason, W. H. H., 132; Maury, R., 484; Mayo, H. O., 24; Messenger, J., 540; Metcalf, J. G., 76; Meynert, T., 620; Montard-Martin, E., 104; Montgomery, G., 304; Moore, J. G., 484; Moore, S. L., 280; Page, G. E., 132; Parker, E., 380; Paquet, A. H., 204; Pelton, C. W., 648; Pengra, C. P., 132; Porter, I. G., 456; Randall, J. W., 104; Richardson, T. G., 564; Richet, A., 24; Ross, J., 304; Savory, C. A., 132; Shove, H. W., 132; Skinner, D. N., 648; Smith, H., 132; Sprague, R., 672; Sproat, H. H., 304; Stahl, A. T., 304; Steiner, L. H., 204; Stillé, A., 450; Stillman, C. F., 484; Stillman, H. W., 156; Storer, D. H., 291, 313; Sweeney, J., 204; Tucker, J. A., 591; Van Bibber, J. B., 484; Van Rensselaer, L., 328; Whitney, E., 404; Willard, R., 156; Wood, J., 48.

"Bichloride of gold cure" denounced by the Hampden District Medical Society, 453.

Biliary infection. Recent researches on biliary infection, 373, 397.

Billings, J. S. The objects, plans and needs of the laboratory of hygiene, 181.

Birch-Hirschfeld and Schmal. Passage of tubercle bacillus from the mother to the fœtus, 430.

Birds as surgeons, Fabio, 201.

Blake, J. G. Gynecological cases from Boston City Hospital, 38.

Blake, J. G., and Prince, M. A case of functional monoplegia in a man, due to tranmatism, recovery, 12.

Blood. The specific gravity of the blood, 246; origin of the red corpuscle, Mix, C. L., 255, 283; condition of the blood in certain mental states, Webber, S. G., 281.

Bœkel. A uterus in a scrotum, 563.

Bolton, T. L. The growth of memory in school children, 646.

Bomb-throwing and responsibility, 71.

Bone. The removal of necrotic and carious bone with hydrochloric acid and pepsin, Morris, R. T., 123.

Booth, J. A. Spasmodic screaming, 144.

Boston. The sanitary condition of Boston, a statistical paper, McCollom, J. H., 49, 64.

Boston Lying-in Hospital, fifty-ninth year, 429.

Bowditch, H. I., 67, 402.

Bowditch, V. Y. The establishment of sanitaria for pulmonary diseases in the vicinity of our great cities, 190, 197.

Bowen, J. T. Recent progress in dermatology, 263, 288.

Brackett, E. G. Reflexes in hip disease, 305, 320.

Bradford, E. H. Three cases of the separation of the epiphysis at the head of the femur, 212; a case of hysterectomy in a child, 556.

Brain. The present status of cerebral surgery, Gray, L. C., 124.

Brannan, S. W. The diagnosis of empyema, 395.

Breast. A case of diffuse fibroma with a tendency to intracanalicular growth of both breasts, operation on each with an interval of three weeks, recovery, Porter, C. B., 205.

Brown, B. Positive and negative medication, 659.

Brown, M. L. A new, safe and sure method to expedite difficult cases of labor, 112, 278.

Bryant, J. D. The use of iodoform in the local treatment of strumous joint diseases, 218.

Buckingham, E. M. Some uses of the stomach-tube, 28, 36.

Bulkley, L. D. The non-contagiousness of leprosy, 22.

Bullard, W. N. Spastic paraplegia, 307, 319.

Burrage, W. L. Three cases of pus in the female pelvis, abdominal section, 163; the electrical treatment of pelvic inflammation, 600, 614.

Burrell, H. L. What is a felon? 108, 120; the management of gangrenous hernia, 209, 214; is it expedient to have a physical examination of men before enlisting them in State troops? 469, 511.

Burrell, H. L., and Cushing, H. W. Recent progress in surgery, 443, 529, 630.

Cabot, A. T. Two cases of cholecystotomy, 418, 423; papilloma removed from the bladder, 477; the treatment of pelvic abscess, 493.

Caille, A. Experiments as to the value of nascent ozone in certain forms of diseases of children, with demonstration of an efficient generator, 473.

Cambridge. Season and disease-prevalence in Cambridge, 1880–1889 inclusive, Farnham, E., 439.

Canon. The bacillus of influenza, 153.

Canon and Pielicke. The bacillus of measles, 453.

Cardiac System. The different forms of cardiac pain, Chew, S. C., 658; some non-valvular heart murmurs, Davis, N. S., Jr., 660; the importance of position in examination for disease of the heart, Campbell, O. B., 661.

Carmalt, W. H. Conditions demanding excision of the globe of the eye, 607.

Campbell, O. B. The importance of position in examination for disease of the heart, 661.

Carey, C. The production of tubular breathing in consolidation and other conditions of the lungs, 658.

Carter, E. C. Myxœdema with insanity treated by injection with extract of thyroid gland, 481.

Castration as a punishment for crime, Hammond, W. A., 351.

Chadbourne, A. P. Dr. Oscar Liebreich's improved method and instruments for the examination of the skin, especially in lupus, 282.

Chadwick, J. R. The pathology, diagnosis and treatment of pelvic inflammations, 495.

Chapin, H. D. Quarantine and disinfection in limited apartments, 269.

Cheney, E. A new and safe way of expediting difficult cases of labor, 203.

Cheney, F. E. Ocular headaches, 10; purulent ophthalmia neonatorum as a cause of blindness, 362, 366.

Chew, S. C. The different forms of cardiac pain, 658.

Chicago. Typhoid fever in Chicago, 126, 153.

Children. Recent progress in diseases of children, Rotch, T. M., 33; infantile atavism, Robinson, L., 73; the work-variation of a child's hour of study, 322; purulent ophthalmia neonatorum as a cause of blindness, Cheney, F. E., 362, 366; empyema in childhood: is it ever primary? its relations to pneumonia and to pleurisy with effusion, Koplik, H., 394; annual meeting of the American Pediatric Society, 473; experiments as to the value of nascent ozone in certain forms of diseases of children, with demonstration of an efficient generator, Caillé, A., 473; manifestations of la grippe in children, Earle, C. W., 473; epidemic of alopecia areata in an orphan asylum for girls during the year 1891, Putnam, C. P., 474; two tracheal and bronchial casts, Huber, F., 475; typhoid fever in children under two years, Northrup, W. P., 500; typhoid fever in children, Earle, C. W., 501; typhoid fever in infancy, Christopher, W. S., 501; a case of sporadic congenital cretinism, Townsend, C. W., 502; syphilitic broncho-stenosis in children, Seibert, A., 502; the relation of rheumatism and chorea, Townsend, C. W., 504; the value of milk laboratories for the advancement of our knowledge of artificial feeding, Rotch, T. M., 505; a case of hysterectomy in a child, Bradford, E. H., 556; the growth of memory in school children, Bolton, T. L., 646.

Chittenden, R. H. and Farlow, J. W. Case of alleged naphtha poisoning in a rubber factory, with an inquiry into the effects of the inhalation of naphtha vapor, 621, 640.

Chloroform *vs.* ether again, 478; the use of chloroform, Cotting, B. E., 558; the successful treatment of chloroform syncope by massage over the heart, Maas, 590.

Chorea. The relation of rheumatism and chorea, Townsend, C. W., 504; a study of the seasonal relations of chorea and rheumatism for a period of fifteen years (1876–1890), Lewis, M. J., 636.

Christopher, W. S. Typhoid fever in infancy, 501.

Christopher, W. D. Retained fæces, 660.

Chronic diseases. Provision for patients with chronic diseases in the city of Boston, Knapp, P. C., 389, 393.

Church, A. The vertigo of arterio-sclerosis, 650.

Circulatory System. Fat embolism, Whitney, W. F., 159, 170; the specific gravity of the blood, 246; origin of the red blood-corpuscles, Mix, C. A., 255, 283; condition of the blood in certain mental states, Webber, S. G., 281; subcutaneous blood injection and infusion, 552; mid-systolic and late systolic mitral murmurs, Griffith, J. P. C., 633; the vertigo of arterio-sclerosis, Church, A., 650.

Cocaine. The abuse of cocaine, Norman, 537.

Coggin, D. Toxic retro-bulbar neuritis, 647.

Davis, W. E. B. Peritonitis from gall-stones, 663.
Death. Abdominal and pelvic emergencies causing sudden deaths, Irish, J. C., and Stone, A. K., 624; sudden death from affections of the nervous system, Knapp, P. C., 628.
Degarmo, W. B. A few points on the management of strangulated hernia, 665.
Derby, H. Recent added facilities for the examination of the eye, 574.
Dermatol. Bacteriological and clinical investigations into the action of dermatol, Stone, A. K., 422.
Detroit. Letter from Detroit: American Medical Association meeting, 618.
Diabetes. A case of glycosuria caused by a lesion probably situated near the fourth ventricle, Stone, A. K., 392, 393; the liver in diabetes, 506; recent investigations of the etiology of diabetes mellitus, Kramer, S. P., 639.
Diarrhœa. The causation and treatment of chronic diarrhœa, Valzah, W. W., 241.
Digestive System. Bacillus coli communis, 19; some uses of the stomach-tube, Buckingham, E. M., 28; a case of biliary calculus, cholecystotomy, duodenal fistula, recovery, Adams, J. F. A., 49; a case of total obliteration of the œsophagus throughout the greater part of its course, of doubtful origin, external œsophagotomy and attempts at dilatation, death, Richardson, M. H., 58; cyst of the pancreas treated by laparotomy, drainage, recovery, Richardson, M. H., and Mumford, J. G., 86, 92; abdominal section in a case of cyst of the mesentery, Goggans, J. A., 122; intestinal antisepsis, Ernst, H. C., 157, 171; the treatment of gangrenous hernia, Gay, George W., 207, 213; the management of gangrenous hernia, Burrell, H. L., 209, 214; a case of intestinal resection and suture for artificial anus following gangrenous hernia, Richardson, M. H., 211, 213; the causation and treatment of chronic diarrhœa, Valzah, W. W., 241; two cases of appendicitis with abscess successfully treated by rectal puncture, 261, 268; intestinal dyspepsia, 272; a case of imperforate rectum, Conant, W. M., 287, 294; three recent cases of œsophagotomy, Gay, G. W., 322, 342; recurrent tumor in the throat, Richardson, M. H., 320; tumor of cæcum causing intussusception, Richardson, M. H., 339; cases of dyspepsia with treatment based upon an examination of the gastric juice, Van Pelt, G. W., 385, 391; a case of glycosuria caused by a lesion probably situated near the fourth ventricle, Stone, A. K., 392, 393; appendicitis, McBurney, C., 401; on resection of the liver, especially for hepatic tumors, Keen, W. W., 405, 423; gall-bladder surgery, Richardson, M. H., 409; secondary laparotomy for pistol wound of the liver, with a report of a case, Gage, H., 416; two cases of cholecystotomy, Cabot, A. T., 416, 423; retention cyst of the gall-bladder, Mixter, S. J., 420, 424; cases of cholecystotomy, Gay, G. W., 421, 423; two cases of abscess of the liver, Irish, J. C., 421; large echinococcus cyst of the liver successfully treated by laparotomy and drainage, Richardson, M. H., 422, 423; treatment of tonsillar hypertrophy, Wright, J., 471; micro-organism in the saliva, Sanarelli, 510; a remarkable anus, 510; intestinal evacuation in operations for obstruction, Smith, G., 562; another musical anus, 563; dysentery; etiology and pathology, Councilman, W. T., 634; dysentery; symptoms, complications and treatment, Ball, A. B., 634; treatment of acute dysentery by antiseptic colon and rectal irrigation, Johnston, W. W., 635; hepatic abscess, Dabney, 635; effect of bitters on gastric movements, Terray, 646; a case of recurrent appendicitis, operation, recovery, Munro, J. C., 653; misconceptions and misnomers revealed by modern gastric research, Stockton, C. G., 657; retained fæces, Christopher, W. D., 660; catarrhal gastritis, Mayer, H. N., 660.
Diphtheria. Feeding in diphtheria, forced feeding, Holt, L. E., 270; constitutional treatment in diphtheria, Jacobi, A., 270; lesions produced by the tox-albumen of diphtheria, Welch, 324; recent investigations relating to the prevention of diphtheria and scarlet fever, Smith, J. L., 368; forms of diphtheria which simulate simple angina, Koplik, H., 475.
Directory. A medical directory humbug, 539; a proposal of the Boston directory, 591.
Disinfection of the hands, Kelly, H. A., 154.
Dislocation. An unique dislocation of the foot and of the astragalus, Haven, J. R., 495.
Draper, F. W. Recent progress in legal medicine, 142; the medical profession and the commonwealth, 565, 593.
Drexel Institute, 43.
Drugs. Absorption of drugs by the skin, 199; bill for pure food and drugs, Paddock, 276.
Drunkenness and crime, James, H., 324.
Dysentery. Dysentery; etiology and pathology, Councilman, W. T., 634; dysentery; symptoms, complications and treatment, Ball, A. B., 634; treatment of acute dysentery by antiseptic colon and rectal irrigation, Johnston, W. W., 635.
Dudley, J. W. Observations on albuminuria in scarlatina, 138, 160.
Dwight, T. Recent progress in anatomy, 654.
Dyspepsia. Cases of dyspepsia with treatment based upon an examination of the gastric juice, Van Pelt, G. W., 385, 391; the place of dyspepsia in general nosology, 676.
Ear. The removal of lead from the ear, Sheild, 510; operative treatment for the relief of chronic suppurative affections of the middle ear; report of three cases, Jack, F. L., 545, 554.
Earle, C. W. Manifestation of la grippe in children, 473; typhoid fever in children, 501.
Edes, R. T. The relations of bacterio-chemical results to prophylaxis and therapeutics, 638.
Editorials. The bacillus coli communis, 19; report of the surgeon-general of the army for the year ending June 30, 1891, 20; the Association of Military Surgeons of the National Guard, 21; the present influenza epidemic, 42; the annual report of the New York County Visiting Committee of the State Charities' Aid Association, 43; the Drexel Institute, 43; Henry Ingersoll Bowditch, M.D., 67; the treatment of influenza, 70; bomb-throwing and responsibility, 71; the nervous and mental phenomena and sequelæ of influenza, 98; restricting the distribution of scarlet fever, 100; the bacillus of influenza, 101; typhoid fever in Chicago, 126; annual reports of the president and treasurer of Harvard College, 1890-91, 150; the quarantining of influenza, 151; vaccination statistics, 151; typhus fever in New York, 173; suicide in the European armies, 174; hygienic legislation, 175; absorption of drugs by the skin, 199; typhus fever in New York, 199; annual appropriations for hospitals in Boston other than the City Hospital, 200; the public health in Massachusetts, typhoid fever and the typhoid bacillus, 222; Hertwig's theory of immunity, 223; specific gravity of the blood, 246; etiology and nature of typhus fever, 247; the appropriation for the library of the surgeon-general's office endangered, 248; intestinal dyspepsia, 272; treatment of neurasthenia by transfusion (hypodermic injection) of nervous substance, 273; word-blindness, 297; evolution and heredity, 299; tuberculosis in Jersey cattle, tuberculin as a diagnostic agent, 321; neuralgias and neuralgic affections, 321; the work-variation of a child's hour of study, 322; the obligations of medicine to physiology, and of physiology to medicine, 345; the thirteenth annual report of the Massachusetts Board of Lunacy and Charity, 347; the annual report of the Boston City Board of Health, 348; recent researches on biliary infections, 373, 397; the vital statistics of Massachusetts for the year 1890, 374; the treatment of typhoid fever, 374; causes of death in Italy for the years 1889 and 1890, 398; the regulation of medical expert testimony, 398; the report of the medical officer of the Local Government Board, 426; the Hospital Saturday and Sunday Association, 426; surgery of the liver, 427; presentation of portraits of Dr. Oliver Wendell Holmes and Dr. Alfred Stillé to the College of Physicians of Philadelphia, 450; chloroform *vs.* ether once again, 478; the vegetarian's heart *vs.* the meat-eater's heart, 478; the Almy murder trial, 478; the liver in diabetes, 506; sex in education, 507; seventy-eighth annual report of the Massachusetts General Hospital and McLean Asylum, 508; the influence of emotions in the production of organic disease, 535; treatment of acute rheumatism in the Paris hospitals, 559; first action of wounded soldiers, 560; electric lighting in its relation to public health, 560; too long vacations, 587; the exhibit at the annual meeting of the Massachusetts Medical Society, 588; the American Medical Association, 616; the four years' course at the Harvard medical school, 616; urinary infections, 642; the place of dyspepsia in general nosology, 676.
Education. The four years' course at the Harvard medical school, Fitz, R. H., 599; the four years' course at the Harvard medical school, 616.
Electricity. Execution by electricity, Van Gieson, I., 201; on the value of electricity in minor gynecology, Reynolds, E., 381; electric lighting in its relation to public health, 560; the electrical treatment of pelvic inflammation, Burrage, W. L., 600, 614.
Emotions. The influence of emotions in the production of organic disease, 535.
Empyema in childhood, is it ever primary? its relations to pneumonia and to pleurisy with effusion, Koplik, H., 374; the diagnosis of empyema, Brannan, S. W., 395; operation for empyema, Ripley, J. H., 395.
Engelmann. Thinness of uterine walls simulating extra-uterine pregnancy, with report of two cases, 122.
Epilepsy. On the relation of epilepsy to injury of the head, Putnam, J. J., 1, 13; two cases of trephining for traumatic epilepsy, Knapp, P. C., and Post, A., 5, 13; a sure cure for epilepsy, 179; the surgical treatment of epilepsy, Price, J., 343; malarial epilepsy, Hill, E. W., 651.
Ernst, H. C. Intestinal antisepsis, 157, 171; some of the recent advances in bacteriology, 541.
Ewing, C. B. The wounded of the Wounded Knee battlefield, with remarks on wounds produced by large and small calibre bullets, 463.
Erysipelas. The contagiousness of erysipelas, Reed, W., 237.
Ether. Chloroform *vs.* ether again, 478.
Everett, W. The American physician, 598.
Evolution and heredity, 299.
Execution by electricity, Van Gieson, I., 201.
Experts. The regulation of medical expert testimony, 398.
Extra-uterine pregnancy. Tubal pregnancy, a case, Washburn, G. H., 30, 37; a case of probable tubal pregnancy, Reynolds, E., 31, 37; a case of tubal pregnancy, Harrington, F. B., 31, 37; extra-uterine pregnancy, cœliotomy, recovery, Johnson, F. W., 60; thinness of the uterine walls simulating extra-uterine pregnancy, Engelmann, G. J., 122.
Eye. Ocular headaches, Cheney, F. E., 10; two cases of corneal wound with prolapse of iris, Greenwood, A., 111; a case of quadrant-anopsia with right sensory and motor hemiplegia, Putnam, J. J., 113; the Mongolian eye, Kōmoto, 226; astigmatism as an element of refraction, and its objective study by the ophthalmometer of Javal and Schiötz (model of 1889), Swasey, E., 232; faulty position of the head and neck due to the eyes, and corrected by tenotomy of the eye muscles, Jack, E. E., 310, 320; purulent ophthalmia neonatorum as a cause of blindness, Cheney, F. E., 362, 366; recent added facilities for the examination of the eye, Derby, H., 574; conditions demanding excision of the globe of the eye, Carmalt, W. H., 607; toxic retro-bulbar neuritis, Coggin, D., 647.
Fabio. Birds as surgeons, 201.
Farnham, E. Season and disease-prevalence in Cambridge, 1880–1889 inclusive, 439.
Fat embolism, Whitney, W. F., 159, 170.
Fell, G. E. Additional evidences of the value of forced respiration, Fell-method in opium narcosis, 662.
Felon. What is a felon? Burrell, H. L., 108, 120.
Femur. Three cases of the separation of the epiphysis at the head of the femur, Bradford, E. H., 212.
Fitz, R. H. The pathology of pelvic inflammation, 491; the four years' course at the Harvard medical school, 599.
Fletcher, S. W. A possible source of error in using the fever thermometer, 303.
Folsom, C. F. Inexpert examinations for arsenic, 227.
Food. A bacteriological examination of the Boston milk-supply, Sedgwick, W. T., and Batchelder, J. L., Jr., 25; feeding in diphtheria, forced feeding, Holt, L. E., 270; bill for pure food and drugs, Paddock, 276; banana flour, 277.
Fractures. The treatment of uncomplicated fractures of the lower end of the humerus, Roberts, J. B., 583.
Gage, H. Secondary laparotomy for pistol wound of the liver, with a report of a case, 416.
Gairdner, W. T. Dr. Henry Ingersoll Bowditch, 402.

Gaston, J. M. Surgery of the gall-bladder and ducts, 663.
Gay, G. W. The treatment of gangrenous hernia, 207, 213; three recent cases of œsophagotomy, 322, 342; cases of cholecystotomy, 421, 423; a collection of calculi recently removed from a bladder by lithotomy, 534.
Generative System. Gynecological cases from the Boston City Hospital, Blake, J. G., 38; two cases of ruptured uterus treated expectantly, Reynolds, E., 80, 90; rupture of the uterus, with the report of a case, Haven, G , 83, 90; removal of a cancerous uterus by vaginal and abdominal hysterectomy, Cushing E. W., 85, 92, 147; complications in pelvic surgery, and how to deal with them, Price, J., 95 ; ovarian cysts, with the report of a case of ovariotomy in a young girl, Kollock, C., 95; a medico legal aspect to pelvic inflammation, Potter, W. W., 96; the growth of fibroid tumors of the uterus after the menopause, Johnson, J. T., 97; the surgical treatment of anterior displacements of the uterus, Reed, C. A. L., 97; a case of laparotomy for ovarian disease, Kingman, E. A., 140, 148; a case of papilloma of the ovary and Fallopian tube, Green, C. M., 142, 149; glandular cystoma, Harrington, F. B., 149; three cases of pus in the female pelvis, abdominal section, Burrage, W. L., 163; dermoid cyst, Porter, C. B., 172; two ovariotomies, Gifford, B. D., 237; the relief of salpingitis by dilatation and drainage of the uterus, Strong, C. P., 258, 266; cases of laparotomy presenting features of unusual interest, Strong, C. P., 359, 367; recent progress in gynecology, Davenport, F. H., 364; on the value of electricity in minor gynecology, Reynolds, E., 381; the pathology of pelvic inflammation, Fitz, R. H., 491; cyst of the broad ligament, Strong, C. P., 495; the treatment of pelvic abscess, Cabot, A. T., 493; the pathology, diagnosis and treatment of pelvic inflammation, Chadwick, J. R., 495; the essentials to success in repair of the pelvic floor in primary and secondary operations, Reynolds, E., 525, 531; a case of hysterectomy in a child, Bradford, E. H., 556; a uterus in a scrotum, Bœkel, 563; case of ovariotomy, Davis, G. W., 577; fibroid tumors of the uterus, Homans, J., 585; the electrical treatment of pelvic inflammation, Burrage, W. L., 600, 614; report of a case of purulent salpingitis, Van Pelt, G., 603, 614.
Gerdes. The bacillus of eclampsia, 562.
Germ Maniac, 327.
Gifford, B. D. Two ovariotomies, 237.

Moulton, A. R. Boarding out the insane, 402.
Munro, J. C. A case of recurrent appendicitis, operation, recovery, 653.
Murri. The cure of a case of hydrophobia, 646.
Myers, H. The disappearance of large psoas abscesses, 218.
Myers, W. H. Obstruction of the cystic duct, 662.
Myxœdema with insanity treated by injection with extract of thyroid gland, Carter, E. C., 481.
Myxo-sarcoma of the thigh, Warren, J. C., 17.
Naphtha. Case of alleged naphtha poisoning in a rubber factory, with an inquiry into the effects of the inhalation of naphtha vapor, Chittenden, R. H., and Farlow, J. W., 621, 640.
Nervous System. On the relation of epilepsy to injury of the head, Putnam, J. J., 1, 13; two cases of trephining for traumatic epilepsy, Knapp, P. C., and Post, A., 5, 13; ocular headaches, Cheney, F. E., 10; a case of functional monoplegia in a man due to traumatism, recovery, Blake, J. G., and Prince, M., 12; resection of posterior branches of upper three cervical nerves for spasmodic torticollis, with report of case, Powers, C. A., 18; alleged cerebral tumor, Leszynsky, 18; a case of hydrophobia, Pierce, G. C., 59; recent progress in the pathology of the nervous system, Knapp, P. C., 88; the nervous and mental phenomena and sequelæ of influenza, 98, 114; a case of quadrant-anopsia with right sensory and motor hemiplegia, Putnam, J. J., 113; the present status of cerebral surgery, Gray, L. C., 124; Thomsen's disease, Dana, C. L., 144; peripheral neuritis or possible lesion of the posterior nerve roots, Leszynsky, W. M., 144; spasmodic screaming, Booth, J. A., 144; debate on the therapeutic value of hypnotism, 145; a sure cure for epilepsy, 179; two fatal cases of cerebral disease (one of confusional insanity, the other of doubtful nature) following grippe, Prince, M., 229; a case of spina bifida, Jacobi, A., 269; treatment of neurasthenia by transfusion (hypodermic injection) of nervous substance, 273; the operative treatment of spastic paralysis, Scudder, C. L., 306, 319; spastic paraplegia, Bullard, W. N., 307, 319; neuralgias and neuralgic affections, 321; tremor of paralysis agitans, 339; pachymeningitis and myelitis, Jacobi, M. P., 342; the surgical treatment of epilepsy, Price, J., 343; a case of glycosuria caused by a lesion probably situated near the fourth ventricle, Stone, A. K., 392, 393; the relations of rheumatism and chorea, Townsend, C. W., 504; a case of cerebella tumor with autopsy, Prince, M., 528; sudden death from affections of the nervous system, Knapp, P. C., 628, a case presenting the symptoms of Landry's paralysis, with recovery, Miles, F. T., 635; a case showing the symptoms of Landry's paralysis, recovering, McPhedran, A., 635; a study of anæsthesia as a guide to the localization of lesions in the lower spinal cord and cauda equina, Starr, M. A., 636; toxic retro-bulbar neuritis, Coggin, D., 647; the vertigo of arterio-sclerosis, Church, A., 650; the significance of intermission on functional nervous diseases, Thomson, W. H., 656.
Neuralgias and Neuralgic Affections, 321.
Neurasthenia. Treatment of neurasthenia by transfusion (hypodermic injection) of nervous substance, 273.
New York. New regulations of the New York Commission in Lunacy, 22; New York county visiting committee of the State Charities aid association, 43; vital statistics of New York city, 46; New York ambulance surgeons, 155; typhus fever in New York, 173, 199.
Nitrites. Their therapeutic action and scope in medical practice, Winslow, K., 353.
Nomenclature. The reform of German anatomical nomenclature, Krause, W., 481.
Norman. The abuse of cocaine, 537.
Northrup, W. P. Typhoid fever in children under two years of age, 500.
Nurses. Cottage homes for training nurses, Stephenson, F. B., 482.
Obstetrics. Report on progress in obstetrics, Green, C. M., 62.
Œdema. Etiology of acute circumscribed œdema, Bauke, 591.
Œsophagus. A case of total obliteration of the œsophagus throughout the greater part of its course, of doubtful origin; external œsophagotomy, and attempts at dilatation, death, Richardson, M. H., 58.
Œsophagotomy. Three recent cases of œsophagotomy, Gay, G. W., 332, 342.
Orthopraxy. Congenital dislocation of the hip, Phelps, A. M., 77, 93; a case of the Phelps operation for talipes equino-varus, Cushing, H. W., 308, 319; a case of double congenital club-foot in the adult, Thorndike, A., 309, 319; faulty position of the head and neck due to the eyes, and corrected by tenotomy of the eye muscles, Jack, E. E., 310, 320; the use of iodoform in the treatment of strumous joint diseases, Bryant, J. D., 218; reflexes in hip disease, Brackett, E. G., 305, 320; forcible straightening for permanent flexion of the knee, Goldthwaite, J. E., 443; a case of torticollis due to hæmatoma of the sterno-mastoid muscle, Lovett, R. W., 311, 320; a method of open incision for club-foot, Phelps, A. M., 318.
Osler, W. Remarks on specialism, 457.
Ovariotomy. Ovarian cysts with the report of a case of ovariotomy in a young girl, Kollock, C., 95; two ovariotomies, Gifford, B. D., 237; case of ovariotomy, Davis, G. W., 577.
Ozone. Experiments as to the value of nascent ozone in certain forms of diseases of children, with demonstration of an efficient generator, Caillé, A., 473.
Paddock bill for pure food and drugs, 276.
Palate. Tubercular ulceration of the hard palate and gums, Coolidge, A., Jr., 437.
Pancreas. Cyst of the pancreas treated by laparotomy, drainage, recovery, Richardson, M. H., and Mumford, J. G., 86, 92; pancreatic cyst apparently cured by incision and drainage, recurrence, perforation of the stomach, death, autopsy, Richardson, M. H., 441, 449.

Parker, W. T. The mural paintings at the Paris school of medicine, 179.
Pediculosis. Nomenclature of pediculosis, Allen, C. W., 440.
Pelvis. The pathology of pelvic inflammation, Fitz, R. H., 491; the treatment of pelvic abscess, Cabot, A. T., 493; the pathology, diagnosis and treatment of pelvic inflammation, Chadwick, J. R., 495.
Pennell, W. W. The genesis of pneumonia, 661.
Pfeiffer and Beck. The bacillus of influenza, 645.
Phelps, A. M. Congenital dislocation of the hip, 77, 93; a method of open incision for club-foot, 318.
Phthisis. A study of the processes which result in the arrest or cure of pulmonary phthisis, Loomis, H. P., 38.
Physiology. Notes of progress in physiology, Warren, J. W., 167, 238; the obligation of physiology to medicine and of medicine to physiology, 345.
Pierce, G. C. A case of hydrophobia, 59.
Placenta prævia and uræmia in the same patient, Townsend, C. W., 550, 557; placenta prævia complicated with uræmia and impending eclampsia, Green, C. M., 551, 557.
Pleurisy. The etiology of acute pleurisy with effusion, Sears, G. G., 192.
Pneumonia. The treatment of pneumonia, 23; influence of cold on the production of pneumonia, Lipari, 201.
Poison. Cases of opium and atropine poisoning in early life, Rotch, T. M., 231, 234; discussion on opium poisoning, especially from the medico-legal side, 242; case of alleged poisoning in a rubber factory, with an inquiry into the effects of the inhalation of naphtha vapor, Chittenden, R. H., and Farlow, J. W., 621, 640.
Pomeroy, S. Vindication of Dr. Sterling Pomeroy, Achorn, J. W., 47.
Porter, C. B. Dermoid cyst, 172; four calculi removed from the bladder by suprapubic section, 172; a case of diffuse fibroma with a tendency to intracanilicular growth of both breasts; operation on each with an interval of three weeks; recovery, 205.
Post, A. Two cases of compound fracture and dislocation at the ankle-joint, 335, 340.
Potter, W. W. A medico-legal aspect to pelvic inflammation, 96.
Powers, C. A. Resection of posterior branches of upper three cervical nerves for spasmodic torticollis, with report of case, 18; "Keen's operation" for spasmodic torticollis due to implication of the posterior rotator, 279.
Practice of Medicine. Virginia medical law, Michaux, J., 539.
Pregnancy, Affections connected with. Tubal pregnancy, a case, Washburn, G. H., 30, 37; a case of probable tubal pregnancy, Reynolds, E., 31, 37; a case of tubal pregnancy, Harrington, F. B., 31, 37; extra-uterine pregnancy, cœliotomy, recovery, Johnson, F. W., 60; report on progress in obstetrics, Green, C. M., 62; two cases of ruptured uterus treated expectantly, Reynolds, E., 86, 90; rupture of the uterus with the report of a case, Haven, G., 83, 90; the part the shoulders play in producing laceration of the perinæum, with suggestions for its prevention, Haggard, W. D., 97; a new safe and sure method to expedite difficult cases of labor, Brown, M. L., 112, 278; thinness of the uterine walls simulating extra-uterine pregnancy, Engelmann, G. J., 122; a case of induced abortion for relief of nausea and vomiting, with remarks, Tompkins, C., 124; labor complicated by prolapsed tumors, Reynolds, E., 133, 245; unique theories of the mechanism of labor, 154; the care of women in pregnancy, Green, C. M., 186, 194; a new and safe way of expediting difficult cases of labor, Cheney, E., 203; a report of three cases of craniotomy, Haven, G., 260, 267; two cases of pregnancy and labor at term, following the Alexander-Adams operation, Johnson, F. W., 363; the essentials to success in repair of the pelvic floor in primary and secondary operations, Reynolds, E., 525, 531; placenta prævia and uræmia in the same patient, Townsend, C. W., 550, 557; placenta prævia complicated with uræmia and impending eclampsia, Green, C. M., 551, 557; three cases of obstetrical interest, Townsend, C. W., 558; the use of chloroform, Cotting, B. E., 558; the bacillus of eclampsia, Gerdes, 562.
Price, J. Complications in pelvic surgery and how to deal with them, 95; the surgical treatment of epilepsy, 343; intestinal lesions in abdominal and pelvic surgery, 664.
Prince, M. Two fatal cases of cerebral disease (one of confusional insanity, the other of doubtful nature) following grippe, 229; tremor of paralysis agitans, 339; a case of cerebellar tumor with autopsy, 528.
Professional Secrecy, the legal requirement of, 669.
Psoas Abscess. The disappearance of large psoas abscesses, Myers, H., 218.
Putnam, C. P. Epidemic of alopecia areata in an orphan asylum for girls during the year 1891, 474.
Putnam, J. J. On the relation of epilepsy to injury of the head, 1, 13; a case of quadrant-anopsia with right sensory and motor hemiplegia, 113.
Quarantine. The quarantining of influenza, 151; quarantine and disinfection in limited apartments, Chapin, H. D., 269
Rachford, B. K. Pre-tubercular anæmia, 502.
Ransohoff, J. The management of gangrenous hernia, 665.
Recent Progress. Children, Rotch, T. M., 33; obstetrics, Green, C. M., 62; nervous system, Knapp, P. C., 88, 114; legal medicine, Draper, F. W., 142; physiology, Warren, J. W., 167, 238; dermatology, Bowen, J. T., 263, 288; public hygiene, Abbott, S. W., 311, 336; gynecology, Davenport, F. H., 364; surgery, Burrill, H. L., and Cushing, H. W., 443, 529, 630; therapeutics, Williams, F. H., 552, 578, 604.
Rectum. A case of imperforate rectum, Conant, W. M., 287, 294.
Reed, C. A. L. The surgical treatment of anterior displacements of the uterus, 97.
Reed, W. The contagiousness of erysipelas, 237.
Respiratory System. The treatment of pneumonia, 23; a study of the processes which result in the arrest or cure of pulmonary phthisis, Loomis, H. P., 38; the present influenza epidemic, 42; the establishment of sanitaria for pulmonary diseases in the vicinity of our great cities, Bowditch, V. Y., 190, 197; the etiology of acute pleurisy with effusion, Sears, G. G., 192, 197; influence of cold in the production of pneumonia, Lipari, 201; the best apparatus and best disinfectant for use in mouth and nose, Winters, J. E., 269; aspiration from the patient's standpoint, Bensel, W., 377; empyema in childhood; is it ever primary? its relations to pneumonia and pleurisy with effusion, Koplik, H., 394; the diagnosis of empyema, Brannan, S. W., 395; operation for empyema, Ripley, J. H., 395; expansion of the lungs in cases treated by incisional drainage, Roosevelt, J. W., 395; treatment of tonsillar hypertrophy, Wright, J., 471; two tracheal and bronchial casts, Huber, F., 475; syphilitic broncho-stenosis in children, Seibert, A., 502; a case of death from laryngismus stridulus in incipient rachitis, Adams, S. S., 503; pneumonia in Boston during the recent epidemic of influenza, Shattuck, G. B., 518, 532; a case of empyema with recurrence after apparent recovery, Ayer, S. H., 547, 554; the production of tubular breathing in consolidation and other conditions of the lungs, Cary, C., 658; the genesis of pneumonia, Pennell, W. W., 661; the cardiac indications in the treatment of pneumonia, Ambers, J. M., 661.
Reynolds, E. A case of probable tubal pregnancy, 31, 37; two cases of ruptured uterus treated expectantly, 86, 90; labor complicated by prolapsed tumors, 133, 245; on the value of electricity in minor gynecology, 381; the essentials to success in repair of the pelvic floor in primary and secondary operations, 525, 531.
Rheumatism. The relation of rheumatism and chorea, Townsend, C. W., 504; treatment of rheumatism in the Paris hospitals, 559; a study of the seasonal relations of chorea and rheumatism for a period of fifteen years (1876–1890), Lewis, M. J., 636.
Richardson, M. H. A case of total obliteration of the œsophagus throughout the greater part of its course, of doubtful origin, external œsophagotomy and attempts at dilatation, death, 58; a case of intestinal resection and suture for artificial anus following gangrenous hernia, 211, 213; two cases of appendicitis with abscess, successfully treated by rectal puncture, 261, 268; recurrent tumor in the throat, 320; tumor of cæcum causing intussusception, 339; gall-bladder surgery, 409; large ecchinococcus cyst of the liver successfully treated by laparotomy and drainage, 422, 423; retro-peritoneal congenital cyst, 424; pancreatic cyst apparently cured by incision and drainage, recurrence, perforation of the stomach, death, autopsy, 441, 449.
Richardson, M. H., and Mumford, J. G. Cyst of the pancreas treated by laparotomy, drainage, recovery, 86, 92.
Rickets. A case of death from laryngismus stridulus in incipient rachitis, Adams, S. S., 503.
